# THE ARTS

## **Digital Photography**

Learn and apply basic photography skills including the rule of thirds and filling the frame. Journey through four different styles of photography! Beginning with Forced Perspective, side walk chalk and various props will be used to showcase how to use what is around you to create interesting photos. The second style, Macro Photography, teaches how to look closer for that perfect shot. The third and final styles will be portrait and abstract photography. As a final project, complete a photobook highlighting your best work. Class is for cell phones & tablets only!

## **Discover Art • Ages 9-12 years old • AM and PM Session**

Love being creative and trying new kinds of art? This class was designed to provide an introduction to a variety of art forms. Try out mosaic art, recycled art using cardboard, paper, plastic, etc., nature art using elements like driftwood, string, and stone, DIY slime, mixed media art, and acrylic painting. Everyday, there will be something new!

## **Paints, Palettes, and Pastels with Michele Anscombe • Ages 11-15 years old • AM Session**

Spend the entire week painting! This class will include Acrylic, Watercolor, and Pastel painting. Explore different styles and types of painting to create a variety of work each day. This is a fun approach to try a little bit of everything while learning about color and how to use it in artwork.

## **PopArt Painting with Michele Anscombe • Ages 11-15 years old • PM Session**

Create artwork that is influenced by our popular culture! Comics, advertisements, and mass media will be our inspiration along with famous artists; Andy Warhol, Takashi Murakami, Elizabeth Murray and Claes Oldenberg. We will learn about color, mixing paint, applying paint and using both acrylic and watercolor paint to complete our artwork throughout the week. Painting a PopArt selfie and creating a comic are just the beginning to this exciting exploration of paint and pop art.

# OUTDOOR ADVENTURES

## **Archery with Mark Willis • PM Session**

Learn the sport of archery by making your own arrows and shooting your bow with precision and accuracy. Class will cover safety, history of archery, bow hunting, and practice at different targets. Limited bows available for use. Please contact Cara at 231.843.5825 if you need to reserve a bow. Otherwise, please bring a personal bow to class.

## **Farm to Fork with Jorhie Beadle • AM and PM Sessions**

This hands on session will teach students about how food is produced – from the farm to the fork. Students will be able to plant seeds, build compost and even play with livestock. We will be exploring some strange veggies and cool water animals. Students should be prepared to get their hands dirty and be outside.

### **Pond Ecology and Fly Fishing with Mark Willis • AM Session**

Investigate the living and non-living components of the West Shore pond. Students will get hands on experience netting and collecting macro invertebrates, testing water quality, and fishing with hook and line. During the week students will construct a miniature pond using a large jar or two liter bottle that will be taken home at the end of the course. Students should bring a two liter bottle and fishing poles (if possible). Bug spray and rubber boots are recommended.

# HUMANITIES

### **American Sign Language with Sarah Hresko • AM Session**

This course has been offered in the past but is back by popular demand! This American Sign Language course is for signers of all abilities, those interested in learning ASL or those who already know a few signs. This course will be able to meet the needs of various signing abilities because it will be taught by two instructors! The most exciting part of this course is that one teacher is hearing and the other teacher is deaf. Come learn ASL vocabulary, phrases, and communication skills from natural signers while having fun and meeting new people.

### **Build a Business Tom Hinman • AM and PM Session**

Design a business from the ground up. Discover what goes on behind the scenes in a business, how to create a business plan, advertising strategies, financials and accounting, and determining location and inventory. On Friday, bring your business to life for parents to visit!

### **Culinary Arts with Aaron Thiel • AM and PM Sessions**

With the guided expertise of Chef Aaron, students will learn how to prepare five different ethnic meals. Discover culinary delights from Italy, France, Asia, Poland, and America! Try something new each day!

### **Electric Guitar with Matt Sanderson • AM Session (9-15 year olds)**

Learn the tone-tastic world of electric guitar gear! Dig into the difference between humbucker and single-coil guitar pickups; the various types of guitar effects including reverb, delay, modulation, and drive, as well as how to build a pedalboard; the tonal differences between styles of amps; and how to achieve guitar tones typical of rock, jazz, blues and heavy metal. Students will have the opportunity to craft their own unique signature sonic tone! Join us and together we will make the sound in your head a reality!

### **Music Exploration**

This music sampler is a class that is a taste of different unique musical instruments and singing. The class will include reading simple music, voice techniques, hand bells, ukulele, accordion and guitar (chords). The student must take on all the samples of instruments in this class. The class will have group and individual time for their instrument of the day. The last class will include a simple fun "recital" of their talents put together.

### **Philosophy Through Movies with Matt Sanderson • PM Session (12-15 year olds)**

What can you know for certain? Do you have free will? What defines you as a person? What is the meaning of life? This class will explore these and other big questions through an examination of movies such as The Truman Show, Evan Almighty, and Groundhog Day.

### **Theater with Michelle Kiessel • AM Session (9-11 years old) and PM Session (12-15 years old)**

Explore acting through practical application, working with comedy, Shakespeare and contemporary drama through monologue and dialogue. By the end of the course, students will be able to understand the basic dynamics of stage work and acting as a craft through various methods! Join us for a chance to perform!
