Educational Philosophy and General Education Program

A. West Shore Community College shall be committed to providing high-quality learning opportunities that focus on student success and the strengthening of our communities.

B. As such, the College shall maintain a general education program that cultivates the ability to communicate clearly, think critically and creatively, behave professionally and ethically, and adapt to a changing, multicultural world. A current listing of general education requirements shall be publicly available.

C. The College shall offer cultural and social experiences that strengthen its position as a hub of learning and culture within the community and that contributes to the development of an educated society.
