Tuition and Second Residence

Non-residents of the College district who own and pay property taxes on a second residence within the district and dependents (claimed as an exemption on the parents’ most recent federal income tax return) of such property owners may receive a tuition credit once a calendar year. This credit cannot exceed the differential between the resident and non-resident tuition rates or the amount of property taxes paid in support of the College, whichever is the lesser. The credit will be applied at the time of course registration, upon presentation to the Registrar of a property tax receipt delineating property tax paid for most recent calendar year. A copy of the parents’ most recent federal income tax return is also required for dependents.
